

TUBULAR PILES

Deepdale are major suppliers of non standard large diameter pipes to all sectors of the Civil & Marine Industries.

The Tubular Piles are manufactured in a range of materials, from standard carbon steel to high tensile steel, and in all thicknesses to suit specified design.

Our sizes range from 600mm Dia. up to 4000mm Dia., with wall thicknesses from 10mm to 50mm.

TYPICAL APPLICATIONS

Deepdale have supplied Tubular Piling for the following applications:

- Ground Reinforcement
- Stabilisation
- Marine Industries & Offshore
- Geotechnical
- Environmental
- Cofferdams

Over the past 50 Years we have gained an enviable reputation for Quality of Workmanship & personal service to become a leading sub-contract fabrication company in the UK, and more recently Europe and the Far East.

We would welcome the opportunity for our experienced Sales Engineers to offer and quote cost effective solutions to your requirements.
